

# SENSORY GARDEN OUR DISTRICT CENTENNIAL PROJECT

*The Sensory Garden Design*

Brian Knowles is the chairman for this project and he advises that District has been successful in an application for funding from the State Government Benefit Fund for an automated audio system for the gardens. He also advises that we were not successful in an application for funding for some sculptured Australian animals. However we go ahead with the gardens regardless!

The 'Ground Breaking' ceremony is to be on 23<sup>rd</sup> February at the Rosser Park site and begins at 10.00am EST. The design is shown in this Newsletter and the plan for 'our' section and I am sure you all agree that PRIT Brian has done a tremendous job. Thanks Brian indeed for your efforts. All Gold Coast Presidents will receive an invitation to the ceremony as well as all PDGs but everyone is invited to come along if you wish. Just let PRIT Brian Knowles know if you are coming. We will be planting a special tree grown from seed from the Firewheel tree planted by Paul Harris in North Sydney in 1935.
